

Job Description:

Title: Technical Analyst
Location: Shannon, Ireland
Direct Report: Head of Servicing
Job Type: Permanent, Full-Time

Company Overview:

Stratos is an independent aircraft lessor specialising in large commercial aircraft. Our core business is remarketing, servicing and financing aircraft with over 60 aircraft currently under management. In order to support our growing aircraft portfolio, Stratos is now looking to recruit a technical professional to join its servicing platform based in Shannon, Ireland.

Position Overview:

Reporting to the Head of Servicing, the Technical Analyst will support the Technical team to provide ongoing technical and asset management services for a portfolio of managed aircraft. The successful candidate will be given real responsibility and direct involvement in major projects. Working with a team of aviation professionals, you will also provide support to the marketing, legal, finance and contracts teams, providing unique access to different parts of our organisation.

Key Responsibilities:

- Prepare aircraft technical specifications and remarketing information for aircraft and engines;
- Manage on lease technical audit inspections;
- Monitor lessee related maintenance obligations during the term of a lease;
- Monitor aircraft activity and titled component status;
- Process maintenance reserve claims following the terms set out in the related lease agreements;
- Prepare valuation models for aircraft and for individual engine assets;
- Prepare maintenance cash flow projections and financial models including end of lease compensation;
- Support the Technical team with redelivery and delivery activity as required;
- Oversight of aircraft records system ensuring adherence to internal procedures;
- Manage the escalation of maintenance reserve rates;
- Development of long term excel tools/models that will contribute to the success of the organisation; and
- Support other internal departments including Legal, Marketing and Finance by assisting on technical and asset related requests.

STRATOS

Experience:

- Degree qualification, preferably in aeronautical engineering or other relevant experience; and
- Experience in a related role in an aircraft leasing company, airline, engineering or maintenance services company is desirable.

Skills/ Competencies:

- Excellent organisational, analysis, problem solving and communication/presentation skills;
- Highly computer literate, including a high proficiency with excel, knowledge of MS Access is desirable;
- Demonstrate a common-sense approach to tasks with a high attention to detail;
- Ability to review the 'big picture' rather than getting caught up in the detail;
- Team player capable of working across time zones, to tight deadlines and under own initiative;
- Enjoy working in a fast-paced, dynamic team environment;
- Knowledge of narrow and wide body commercial aircraft, engines, and related systems/parts; and
- Fluent English speaker.
